Piggy Paint

Piggy Paint is a natural nail polish designed for glamorous little girls. Both the polish and remover are non-toxic, odorless, and safe to use for all ages. For little girls who love to decorate their nails, Piggy Paint eases Mom's concerns about painting their nails with toxic chemicals and puts the excitement back into this fun activity. Available in 13 bright, vibrant colors.

Piggy Paint is a water-based, non-toxic polish specially formulated of natural ingredients and proudly made in the United States of America. It is free of formaldehyde, toluene, phthalates, bisphenol-A, ethyl acetate and acetone. Piggy Paint's hypoallergenic, odorless formula makes it gentle enough for sensitive little hands and noses, yet it dries to a hard, durable finish that can easily be removed with Piggy Paint Polish Remover. This unique remover is also non-toxic, safe to use, and contains none of the solvents that could offend your nose or harm the atmosphere. Finally, a kid-friendly polish without the accompanying drawbacks of traditional nail polishes designed for children! It has no foul odors, no toxic chemicals, and will not damage your little ones' nails or the environment.

Say good-bye to harsh, smelly chemicals and hello to Piggy Paint... it's as Natural as Mud!

Piggy Paint was recently founded by Melanie Hurley, a Stay-at-Home Mom with two fancy little girls, who love to have their fingernails painted. This Mom always hated the thought of her children putting their hands in their mouths after she painted their nails with traditional kid polishes.

Personal Child Stories

Explore the love of reading with your children by engaging them in their own unique story book complete with personal photos! Handcrafted books by Personal Child Stories books are custom written and designed for all ages and stages, including special needs. Choose from a multitude of themes, including the ABC's, welcoming a new brother or sister to the home, potty training, colors, shapes, or dealing with a special need. Using photos in learning has already proven effective in research. Personal Child Stories says PERSONAL photos are even more effective! When children see their own images, the results are typically far reaching and wide. Lines of communication are opened, the child's interest is peaked and concepts are quickly mastered. Retail Price: \$20 - \$75 depending on number of photos and laminated pages Sold At: www.personalchildstories.com
